

# 4 FACTS EXPLAIN WHY YOU DON'T NEED TO CHANGE NURSING FRAMEWORKS TO PREP FOR THE NGN

1

July 2017–December 2018:  
340,000+ individuals  
interacted with new NGN-  
style item types designed  
to measure clinical  
judgment.

2

All students were  
educated using a variety  
of nursing frameworks.

3

No matter which nursing  
framework the student had  
been taught, the impact  
was the same.

4

Students who performed  
well on the regular NCLEX  
performed well on the  
NGN-style items.
