Getting Started: New Student

Welcome to ATI! The following steps will best prepare you for using ATI in your program. Getting started includes creating an account, ATI Student Orientation, and ATI Products.

STEP 1: CREATE AN ACCOUNT

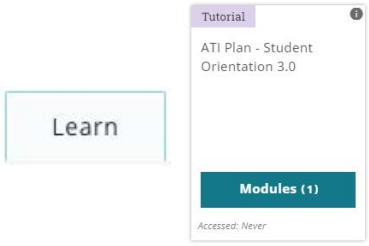

(skip to step 2 if you already have an account)

Go to www.atitesting.com and click create account. If you don't recall your sign on information, click forgot username and/or password.

STEP 2: ATI STUDENT ORIENTATION VIDEO

1. Watch the ATI Student Orientation Video
   a. Click MY ATI > LEARN > Locate the ATI Plan: Student Orientation Video

2. We offer regular live orientation webinars. To register for an upcoming live orientation webinar, click here.

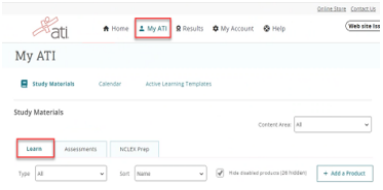

STEP 3: PRODUCT ID/CDN Code

Enter in your Product ID/CDN code to gain access to your resources- your instructor will provide you this information.

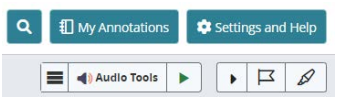

STEP 4: ATI REVIEW MODULES

Click MY ATI then LEARN to locate your Review Modules. Click Review Modules to flip the card and navigate to your desired area of study.

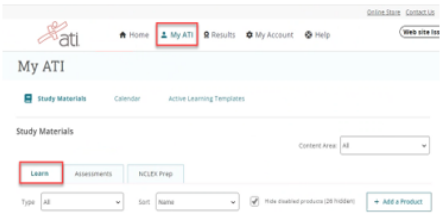

As you study each chapter you can use the annotations feature. Select the text to make a note, highlight, or add a web or hyperlink.

STEP 5: ATI RESOURCES

Quick Tip! Exploring is an essential step to understand the resources and how you will use them in nursing school

Click MY ATI. Explore tutorials, simulations, and video case studies under the LEARN tab. To access a resource, click "modules" to open the card.

STEP 6: ATI ASSESSMENTS, FOCUSED REVIEW, AND PULSE

Students will take ATI Practice and Proctored assessments located under the ASSESSMENTS tab. These assessments will be enabled by your instructor. Practice assessments help you prepare and master content by generating a personalized Focused Review study plan. Once you complete an assessment, your performance profile report automatically generates, providing detailed information on your results. You can also locate results by clicking the MY RESULTS tab.

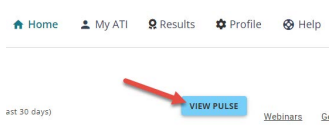

FOCUSED REVIEW

As you take your ATI Assessments you will be able to access a Focused Review under the ASSESSMENTS or RESULTS tab. Focused Review allows you to identify your gaps to prepare you for the proctored tests, and eventually NCLEX. You'll be provided materials based on your performance, so you know exactly what you need to study!

ATI PULSE

This tool calculates your predicted probability of passing the NCLEX (PoP%), it displays whether you are on track, need improvement, or are at risk, provides recommended strategies for preparation or studying, and a direct link to continue your focused review. The View Pulse button will display on the HOME page if a PoP% exists. Pulse can also be located under the RESULTS tab.

ADDITIONAL TRAINING AND SUPPORT

If you need further support, please contact 1-800-667-7531 or your on-campus ATI Champion. You can also view our upcoming events such as webinars at: https://atitesting.com/events.
